CloudSigma OCRE

Cloud Offer for Research & Education

CloudSigma is a leading DACH cloud provider of infrastructure-as-a-service (IaaS) with a focus on best price-performance ratio, and excellent customer support. We offer cloud locations throughout the DACH region, including Zürich, Geneva, and Frankfurt. CloudSigma DACH offers 100% local solution for end customers, without being subjected to other jurisdictions.

"When we talk about patients' data, data privacy is of utmost importance. At the same time, we wanted to be flexible on the infrastructure side. In the face of CloudSigma, we found the ideal partner for all our needs." - Dominik von Allmen, Systems Engineer @ SwissPost

Why CloudSigma?

No Vendor Lock-In
At CloudSigma you are able to develop or deploy your application in the cloud **without being forced to use any vendor-specific tools.**

Flexibility & Scalability
Resources are not bundled together and there is no "standard size" server. Combine **long-term subscriptions** for predictable workloads with **on-demand scalability** for unplanned capacity.

High Security
CloudSigma endeavors to deliver a **high degree of security and privacy.** This is reflected in **our ISO 27001, ISO 27017, and ISO 27018 security certifications, PCI DSS - compliance,** and our **strict DDoS-policy**.

24X7 Free Technical Support
Our **free customer support is available 24×7** with a response time under 1 minute. Our escalation policy ensures the rapid resolution of all your issues.

Top Performance
Highest performance cloud stack **powered by HPE's latest generation hardware** running on 10GigE infrastructure.

Interoperability
Any x86 OS or application can run in our cloud unmodified. Use our **seamless live migration tool** to migrate your infrastructure **1:1 on our cloud without any modifications**.

Swiss Cloud with Global Locations
Our company and secure cloud servers are structured to be **independent by location**. If you do computing with us in Switzerland, you are **subject to Swiss law only**. If you do computing in Germany, **your data will be hosted under the German legislation**.

Reliability and Strict SLAs
CloudSigma guarantees **100% availability of virtual servers** and network backed up by **strict SLAs** of x50 times credits against any downtime over 15 minutes.
